REGULAR SESSION · 1933-1934

THE CALIFORNIA SCHOOL OF FINE ARTS was founded by the San Francisco Art Association in 1874; in 1893 it was affiliated with the University of California. The School is now established in the splendid group of buildings recently completed on the new site at Chestnut and Jones streets, on the slope of Russian Hill overlooking the bay.

Formerly known as the Mark Hopkins Institute, the School occupied for many years the historic site on California Street, which, however, was finally sold, and the present property was purchased for the obvious advantages it offers.

It is the purpose of the Administration of the Art Association to make this School the center of a growing influence for art throughout California, to provide fundamental training that will foster the development of independently minded artists whose technical skill will enable them to give free and complete expression to their creative thought. The School desires to awaken in its students a realization of the important place of art in its application to the life of the community and to give them the benefit of progressive leadership in the art expression of our own times.

The 1933-1934 Session opens on Monday, August 21st.

ENROLLMENT AND INSTRUCTION

A four-year course in the study of the Fine Arts is offered to those students who desire complete training for professional work.

Students may enter the School at any time. While no examination or previous instruction is required for the Fine Arts and professional courses of study, students who do not make reasonable progress in their work are not encouraged to remain in the School.

Satisfactory work done in other institutions of high standing will be recognized in so far as it meets the requirements of this School. Elementary work will be given to beginners so far as seems necessary to fit them for the life drawing and painting classes and other advanced courses of study.

The instruction is individual, as well as by lectures and informal talks to the class, and students are given every opportunity to advance as rapidly as is consistent with sound training. The instructors are present to give criticisms two or three times a week.

TEACHERS OF ART: The California School of Fine Arts is accredited by the State Board of Education, offering to qualified students the special secondary credential in art—issued by the Board of Education. This credential entitles the holder to teach the subjects of Art and Crafts in the Elementary, Intermediate and High Schools, and in Junior Colleges.

The complete course comprises four years of comprehensive and systematic study of the fine and applied arts, with required educational and academic subjects, and must be preceded by graduation from an accredited four-year High School with at least 15 units of grade C or better, including 8 recommended units.

As all work given in this School is essentially practical in character, students completing this course would be equally prepared to enter the professional fields of Fine Arts and Commercial Art.

(Write for further information regarding this course.)

TERMS FOR UNITS OF CREDIT: The School will evaluate work done by students in terms of units of credit according to the regulations governing the granting of special Credentials and Certificates of the Arts Type, issued by the Commission of Credentials of the State Board of Education. "A unit or semester-hour is one recitation or lecture hour per week of prepared work carried for a period of eighteen (18) weeks, or of three (3) hours of laboratory work per week carried for a period of eighteen (18) weeks. Prepared work presupposes an average of at least two full hours of study in preparation for each hour of lecture or recitation."

Students who desire credit for their work must sign a card to this effect at time of enrollment. A fee of two dollars is charged for the extra work this supervision entails.

The Faculty members have spent years of study in leading art schools of America and Europe. Their unquestioned ability as teachers insures competent direction of the student's work.

LIBRARY: One of the most attractive features of the new buildings is the library-room. It contains many valuable books on art and the art magazines and periodicals.

THE ANNE BREMER MEMORIAL LIBRARY: Through the generosity of Mr. Albert M. Bender an addition to the regular School library

has been founded, to be known as the Anne Bremer Memorial Library. It is now a reference collection of exceptional value.

LECTURES: A course of lectures given weekly throughout the year designed to acquaint the student with the growth and development of art from ancient to modern times. Certain phases of particular importance to intelligent understanding of contemporary art will be emphasized.

SCHOOL CALENDAR

CALENDAR FOR 1933-34: The first term opens Monday, August 21st, and closes Saturday, December 23, 1933. The second term opens Monday, January 8th, and closes Friday, May 18, 1934. Students are advised to enroll during the week previous to the opening day of each term.

The Summer Session of six weeks opens Monday, June 25th, and closes Friday, August 3, 1934.

The School closes for a few special holidays, to be announced.

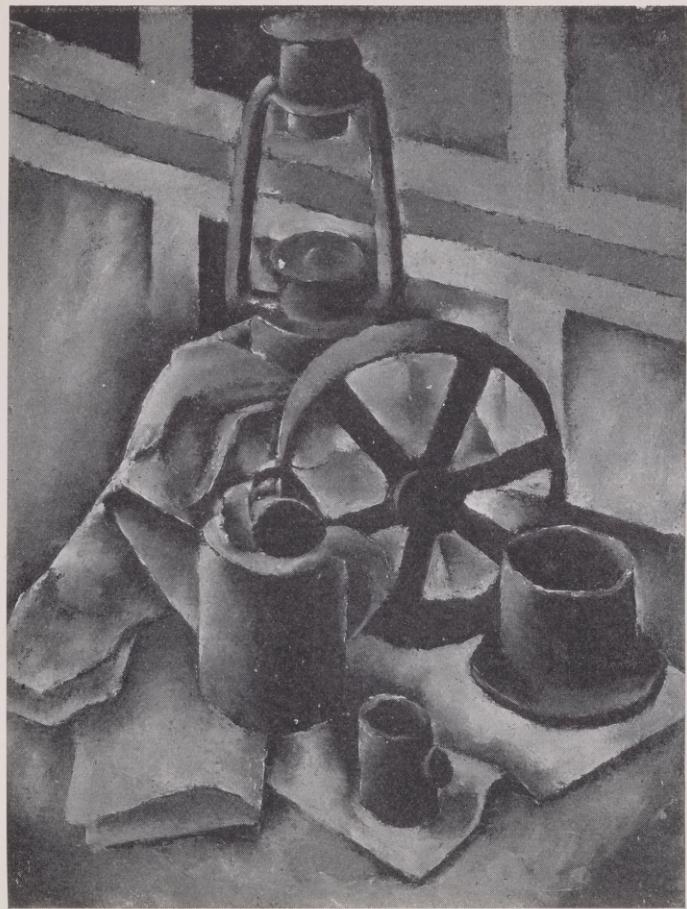

SCHOLARSHIPS AND PRIZES

THE ANNE BREMER MEMORIAL FUND: In memory of the late Anne Bremer, distinguished California painter and former active member of the San Francisco Art Association, a fund of over twenty-five thousand dollars has been created by public subscription, the income from which will be used each year for the aid and encouragement of deserving students of the School. In conjunction with the donations from this fund, the School awards yearly, to students enrolled in the School, two full-year scholarships and three half-year scholarships.

HIGH SCHOOL SCHOLARSHIPS: An annual competition for three scholarships is offered by the School at the close of the second term, open to all high-school students of this state. Original work in either drawing, modeling, or design must be submitted not later than Monday, April 23, 1934. High schools will be sent further information in advance of this date.

MISCELLANEOUS

ART GALLERY: Adjoining the patio is the Art Gallery, where special exhibitions and lectures are held throughout the season.

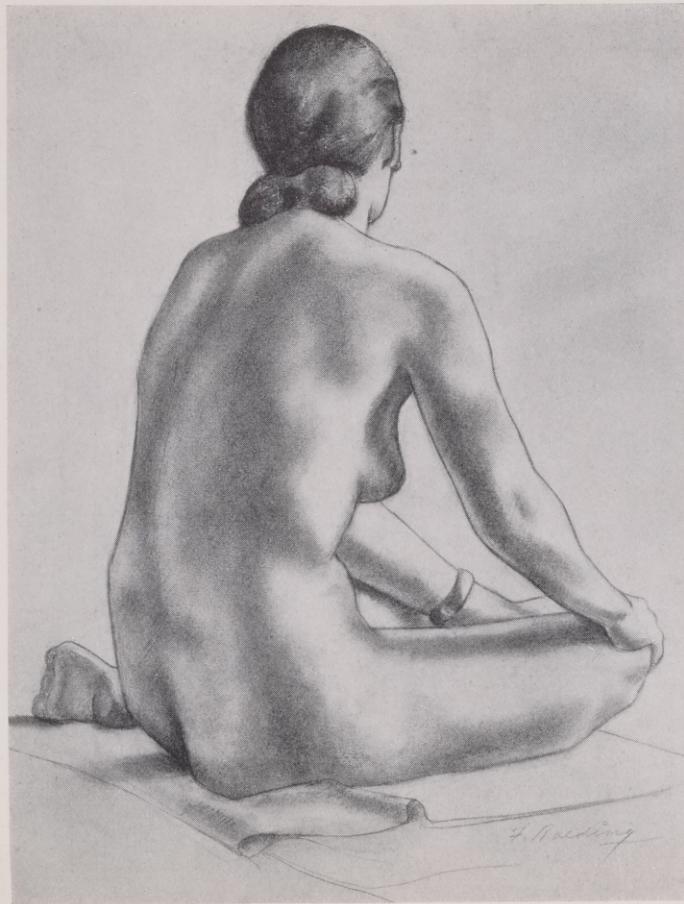

CAFETERIA AND DINING-ROOM: A pleasant room adjoining the terrace and School grounds where simple luncheons are served at moderate prices.

STORE: For convenience of students the School maintains a store where supplies may be purchased at lowest prices.

The School reserves the right to select certain examples from the work of each student at any time during the year, for exhibition or for the permanent collection of the School.

SUMMER SESSION, 1934

A Summer Session of six weeks will be held as usual next summer, June 25 to August 3, 1934. With instructors and general courses of study much the same as for the Regular Session, it is particularly organized to give those who have only the vacation period free for individual study—teachers especially, as well as many

regular students of the School—the advantage of six weeks of intensive art study. Each summer, in addition to the fundamental instruction, special classes of exceptional interest are held. A catalogue of the Summer Session giving full detailed information is prepared in the spring and copies will be mailed on request.

The Department of Drawing and Painting includes a special class for beginners, where Elementary Drawing and Painting with the use of simple materials are taught.

Regular illustrated lectures on Anatomy, Art History, and Esthetic Appreciation are given by Mr. Macky and other artists.

In the new buildings the Night Classes occupy large, well-lighted studios specially equipped for their needs. Students may enroll at any time.
